Sample Poems from "Sun Tracks"

The Sun

The sun, a golden orb Warming the earth with its glow
Life-giver, sustainer
Of all that dwells upon it

In the morning, it rises A new day begins
Hope and promise fill the air
With the sun's first rays

At noon, it reaches its peak Casting its brightest light
A time for work and
activity When shadows are short

In the evening, it sets A day draws to an end
Time for reflection and rest
As the sun sinks below the horizon

The sun, a constant in our lives A symbol of hope and renewal
A reminder
that even after darkness The sun will always rise again

- Ofelia Zepeda

The River

The river flows ever onward A ribbon of life through the land
A source of
sustenance for all Who live along its banks

In the spring, it swells with snowmelt A raging torrent that sweeps away all
in its path
But as summer comes, it slows
And becomes a gentle stream

In the fall, its leaves turn golden
And drift lazily to the ground
A reminder
that even in change The river endures

In the winter, it freezes over A solid sheet of ice But beneath the surface
The water still flows

The river, a symbol of life's journey Ever changing, ever flowing A reminder
that even in darkness The river of life will always carry us through

- Simon Ortiz
